### COMPREHENSIVE DEVELOPMENT PLAN, 2001

- Facilitate improved truck access to industrial and commercial areas.
- Encourage the maintenance and continued development of the Grays Harbor navigable channel and both public and private waterborne shipping terminals.
- Encourage maintenance of and improvements to the freight rail system.
- Provide a safe and pleasant pedestrian system which promotes both functional and recreational walking.
- Encourage bicycle use for recreation and transportation.
- Encourage development of a pedestrian system providing safe and convenient access to all areas of the community, shopping, and recreational opportunities.
- Improve traffic patterns during peak tourist season.
- Establish and maintain appropriate signage for truck routes, streets and scenic routes.
